

## CLEANING THE PATROL BOX For Troop 475

Congratulations! You get to clean the patrol box. It needs to have everything removed and cleaned as follows.

- Please remove stove, open it up and clean/degrease it thoroughly, do not submerge in water.
- Prepare a large sink full of hot, soapy water with 1 tablespoon of bleach to clean the following:
- All 3 wash bins, all cooking utensils (even those not used), all pots and pans (even those not used) and the cutting board.
- Rinse with hot water and dry completely.
- If hot pads/mitts are soiled, please wash them. Mesh drying bags should be washed & dried.
- Before replacing anything to the box, wipe it out to remove dirt, sand & grease.
- Be sure to open **both sides of the box** and wipe the work areas.

There is a complete list of supplies for this box on the back lid area. Check the list to see if any supplies/utensils are missing. Please report any consumables used up. Do not add anything other than what is on the list- if you are unable to replace an item or have something missing, make a note and give it to the quartermaster. The note should include what color box you cleaned and what consumable needs to be replaced or items that are missing.

If you have any questions, please contact either Scout Quartermaster Daniel Jones or Adult Quartermaster Mr. Esterline.

Thank you,
